

## Christine Manville

August 28, 1948 - March 11, 2021

A fiercely stubborn Republican, Christine Manville, formerly Christine Lesniewski, (yes, she married her first husband John for his name,) willed herself to pass to the next dimension on March 11th, 2021 rather than suffer through the Biden administration.

Due to her mozzarella cheese and coffee diet, she was somehow able to only sleep for 3 hours a night. Dinner was at 9pm and she made it every night for her two surviving children Debra and Katherine Manville during their childhood. Working more hours than most couples combined, Christine built and ran her company for 35 successful years, never late on a payroll. She was strong and certain and made mountains move with her will, never making one from a molehill, raising 2 children, working full time and putting herself, her late husband and both children through college. Extremely balanced, her hobbies were astrology, meditation and tarot readings. A role model for anyone put in her path, long time Rotarian Christine was charitable to all furry creatures, anyone military, abused women & children and anyone who was in need of help.

She will be missed horribly by her partner of 18 years, Ralph Strunk, her sister, Debra Moy, her nephew, Eric Krawiec and her 2 daughters, the sunshine of her life, Debra and Katherine Manville.
