“ *Even though I never met her, I felt like I knew her through Vita who told me so many stories about her and what a beautiful Mother, Grandmother and Great Grandmother she was. I also benefitted from the many recipes Vita shared with me that were her Moms. May you rest in peace Grace.*

“ *When we needed laughter, you provided it. When we needed tears, you consoled us. When we needed that extra push, you pushed us. Each of us have a reserved love that we share with the special people in our lives. I was glad to share mine with you. You were not my Grandmother, but yet you were. I will miss everything from fish salad on Christmas to our discussions on politics. I adore you Grandma, and will love you forever.*
