“ *Pete, Heather and Family, The demon disease that Holly fought for 40+ years was a tyrant. She dedicated her professional life to help others, stricken by this disease, to walk their paths as comfortably as possible. Her dedication to the Radiation Therapy patients was remarkable as she comforted each with her caring manner. When nearing the end of her career she joined our team of educators and passed on her wealth of knowledge and experience teaching others the skills necessary to become the caregivers of the future and instilled her vision to the needs of our patients. We thank you dear Holly, rest softly in God's arms. JFK Medical Center, Muhlenberg Snyder Schools of Medical Imaging and Therapeutic Sciences.*
